

FOWEY HARBOUR

Strop Manufacture and Service Charges 2020

Strop Manufacture

Single strop for a swinging mooring	£183.57
Double strop for a fore and aft mooring	£373.81

- All strops manufactured from British Standard nylon with chain tails where necessary.
- All shackles either galvanized or stainless steel.
- As all our strops are tailored for individual boats, it helps if the boat is lying to the mooring on temporary lines for measurement.
- Strops are delivered fitted to the mooring and ready to use
- Price includes pick-up buoys, leadline, plastic chafe guard and VAT.
- All new strops recovered, serviced and stored for the first year free of charge.

Strop Servicing

Strop Service/repair	£100.30
Strop Removal, Clean and Store	£66.70

- Once you have informed us that your boat is off the mooring, your strop will be removed by our staff, pressure washed, inspected and stored.
- Give us at least a week's notice of when your boat is going back in, and we will make sure your strop is securely shackled to the mooring and ready for that date.
- We will include the bill for your service in January during the mooring renewal period
